

A Note from Mother Theresa Louisa, lsp
April 23, 2020

Dear Families, Friends, and Benefactors,

Our first priority is our Residents safety and health. We are taking all necessary steps and precautions to best meet the needs of our Residents and Staff. At this time no one in our Home has COVID 19. Nursing staff are closely monitoring the Residents for COVID 19 symptoms.

We must continue to restrict visitors, volunteers and outside vendors. As per the Minnesota Dept. of Health guidelines all staff are wearing facemasks throughout their shifts and are being screened per CDC/MDH recommendation. Housekeeping continues to disinfect all areas of the Home throughout the day.

Our Residents are privileged to still have daily Mass, which is available to them on our in-house television channel and followed by communion rounds by five Little Sisters. They are enjoying hallway activities such as bowling and golf. Residents are keeping contact with their families via phone, video calls, letters, notes, and window visits on the first floor. We are continually saying special prayers for an end to this coronavirus pandemic.

Our Apartment Residents are encouraged to follow the Governor's order "Stay Safe at Home." The Resident's of the Apartments are being monitored on a daily basis for COVID 19. They are able to call in to request their meals. Dietary staff are preparing individual meals for everyone requesting a meal and they are delivered to each person.

We could use donations of:

- Hand Sanitizer
- Store bought baked goods
- Sanitizing Wipes
- Handmade Masks
- Kleenex
- Surgical Masks
- Lysol Disinfectant Spray
- Pop (Coke & Root beer)
- Beer
- Lotion 4oz or 6oz sizes
- Stamps
- New Birthday Cards

Be assured that you are being remembered in prayer by all the Little Sisters and Residents for your health and safety.

Gratefully in Christ,

Sr. Theresa Louisa, lsp
