Dear Families and Friends,

We completed our whole house testing which included Residents, Apartment Residents, Little Sisters and Staff. The results are all back. As of today, we have a total of 15 Residents positive. Sadly, this afternoon we had 1 death among our Residents. Most of them have mild symptoms and are very grateful for the loving care they are receiving from the Sisters and Staff. All Residents who tested positive are going to be on our designated COVID – 19 floor, which is now the 4th floor. All eight of the Little Sisters tested negative.

Currently there are a total of 16 staff positive, all are at home in isolation at this time and doing well. We will have on-going weekly testing every Monday until there are no more positive cases.

All CDC and MDH guidelines are being followed very carefully. Everyone is being screened daily for symptoms of the virus. We will up-date you as this situation changes.

We truly appreciate the support we receive from so many people. Please know that we continue to keep you all in our prayers and we are very grateful for your prayers for us as well, especially for Residents and Staff who are positive with COVID-19.

Gratefully in Christ,
