

October 9, 2020

Dear Families and Friends,

This note is just a quick up-date from last week. We have had to change the lab we are going with for testing, and are working diligently to get all information ready for testing. With unfailing hope in God's assistance we are cautiously optimistic that we will be able to have testing next week so that we can proceed with a date to start "indoor window visits." This would bring so much joy to our dear Residents and of course to all of you. May our Mother Foundress, Saint Jeanne Jugan, intercede for this intention, for as she often said, "Making the elderly happy, that's all that counts."

I am also happy to share the good news that the flu shots have arrived and many of the Residents have already been vaccinated this week. We hope to finish all Residents by next Monday. The flu shot clinics for the staff will be offered twice next week and again the following week.

We continue to screen staff when they arrive for work, and the Residents are being monitored for signs and symptoms of the virus.

During this month of October, which is traditionally dedicated to Our Lady of the Rosary, let us all say a Rosary for an end to this Coronavirus pandemic.

We thank you for your patience and understanding and your continued support. We will up-date you as things change.

Gratefully in Christ,
Sister Theresa Louisa,
Little Sisters of the Poor

We could use donations of:

Sanitizing Wipes
Medical Gloves Size Large
Bottled Water
Disposable Hinged Containers
Disposable Silverware
N95 Masks
Individually Wrapped Treats
Liquid Tide HE
